

Plants for sale May - June 2021

As the plant sale has been cancelled this year I am trying to put together a list of plants so that you may get in touch to order and collect. I now have a good range of small salvias in jewel colours which will flower until the frosts as well as other perennials which have come on. There are lots of other things but perhaps only one or each. Some of the plants are quite small. Google will assist in identifying things you don't recognise by name.
