## HINTS AND TIPS ON SHOWING FRUIT, VEGETABLES AND FLOWERS

These are just a few points to help if you are unsure about staging any of the classes.

If there are things that you think we have left out or want to know, please tell a committee member.

### Fruit and Vegetable Classes

**As grown** – Means the produce to be washed, not scrubbed and not trimmed.

**Onions and Shallots** – Take one or two skins off, tops trimmed, folded down and tied with raffia or string and roots trimmed back to base.

**Leeks** – Trim roots not the leaves.

**Collection of herbs** – Ideally in four separate vases/jars and labelled. Culinary means they are often used in cooking.

### Plants and Flowers

#### **Herbaceous perennials:**

Any plant with a non-woody stem that either dies down to the ground completely each winter ( e.g. delphinium) or retains its basal foliage (e.g. bergenia) but which has a rootstock that remains alive throughout several years. This can include bulbs, corms, rhizomes and tubers.

#### **Annuals:**

A plant that grows from seed and flowers, seeds and dies within twelve months.

### Cookery

**Jams and Jellies:** Use jars that do not have wording on the sides or lids. Label and date the preserved. Ideally the jars should be filled to the top.
